

Grafikrechnen II

Grafikrechnen 37

Die Ziffern von 0 bis 9 sind statt der Grafiken... so in die Additionen und Subtraktionen einzusetzen, dass die Rechnungen schlüssig sind. Dabei stehen gleiche Grafiken für gleiche Ziffern.

Lösung:

The image shows three subtraction problems arranged in a grid. Each problem consists of three rows of numbers in blue boxes on a green background. The first row is the minuend, the second row is the subtrahend, and the third row is the result. The problems are:

6	5	6	-	3	9	9	=	2	5	7
-				-				-		
4	3	3	-	2	3	8	=	1	9	5
=				=				=		
2	2	3	-	1	6	1	=	6	2
